Trialling Microsoft Teams for the Resident's Update Meeting

We are trialling Microsoft Teams 'Town Hall' as a new method of delivering our Resident's Update Meeting, in the hope of offering greater accessibility for those unable to attend in person. We appreciate that things may not go perfectly the first time, and there may be a few technical teething problems along the way.

The Town Hall feature in Microsoft Teams will allow you to watch the live NPEL Resident's Update Meeting and take part in the Q&A session. Please note that your microphone and camera will be disabled during the event, and there won't be a public chat function available to attendees.

Before joining a Town Hall meeting, we recommend downloading the Microsoft Teams app onto your device. You can join the meeting by clicking on the link provided below.

For the smoothest experience, we recommend the following:

- **Windows laptop/desktop:** Join via Google Chrome, Microsoft Edge, or the Teams app.
- **Mac laptop/desktop:** Download the Teams app or download the Teams app (Safari is not supported).
- **iPhone/iPad:** Use the Microsoft Teams app (joining via a browser will not work). However, please be aware that some users have reported occasional issues even when using the app.
- **Android phone/tablet:** Use the Teams app or a supported browser.

Thank you for your patience as we explore this new format — we'll continue to assess what works best and welcome your feedback as we go.
