

The Nottingham Park Estate Limited

Nominees for Election at the 41st AGM

Andrew Crowhurst

Having been proposed by Josie Tanvir

I have had the great privilege of living in The Park for more than 25 years. I have been actively involved in conserving the character of our unique and beautiful estate throughout this time, as a member of the Nottingham Park Conservation Trust (2001-13 and 2023-present) and the NPEL (2009-13 and 2022-present; including a period as Chair). I am currently a member of the Greens and Finance Sub-Committees.

I see first-hand the sustained effort required from the staff team and contractors to maintain The Park's roads and open spaces to the high standard that residents and members rightly expect. I am keen to continue volunteering my time and experience to the Board. I aim to support the Estate team's efforts to meet these day-to-day challenges, to promote communication between the NPEL, its members and residents and to contribute to the shaping of the NPELs long-term vision for The Park, to ensure its unique historic character is protected and that it remains an exceptional place to live, for residents today and in the future.

Ian Foston

Having been proposed by Paul Tutin

Having been born and raised in Nottingham, I have a lifelong appreciation for the city's history, architecture and heritage. As a resident of the Park Estate, I am committed to helping preserve one of Nottingham's most distinctive and historically important residential communities while ensuring it remains well managed for future generations. Professionally, I have more than 30 years of international leadership experience, including executive, board and non-executive director roles across a range of organisations. My career has encompassed governance, strategic planning, financial oversight, operational leadership and stakeholder engagement, providing me with extensive experience in effective decision-making and organisational stewardship. I believe these skills and experiences would enable me to make a positive contribution to the Board as it balances the preservation of the Estate's unique character and heritage with the practical requirements of managing a modern, sustainable and financially responsible community. I would bring an independent perspective, sound judgement, transparency and a collaborative approach, with a commitment to representing the interests of residents and supporting the long-term stewardship of the Park Estate.

Andy Smith

Having been proposed by Josie Tanvir

Having lived on the Park for four years, I know what a special place it is. My motivation for volunteering is simple: to do my bit to preserve it and renew it for the future.

The Park needs to continually adapt to keep itself current with residents' lifestyles and the challenges of the modern world. Getting that done in the right way to preserve its uniqueness requires strategy, planning, judgement and great execution, all underpinned by two-way communication.

I bring a wealth of experience from forty years in business where I've held Board positions in companies large and small, across many sectors (eg BP, Mars, Pepsi, Boots, Severn Trent). I'm experienced in strategy and planning and bring a pragmatic approach to decision-making and trade-offs. I have direct experience in utilities and managing sub-contractors: potentially useful given the daily problems the Park Office faces. Additionally, I am experienced in communicating clearly with a wide range of people with different interests and perspectives.

I am familiar with what's required on the Board from my periods of service as a co-optee. I am 66 years-old, retired and have time available for the role.
